This is how I will be voting, but feel free to change to suit your own views

- 1 Below the black line and starting with a "1" for Stewart Glass number ALL 46 squares
- 2 Don't put anything "above the line"
- 3 Double check you have numbered all the boxes correctly - go through each column and cross off the numbers below as a double-check
(ie in column A mark off 15 and 16 in column B mark off 40 and 41)
- 4 If you make a mistake, don't worry it happens all the time. Just ask for a replacement ballot.
